

WJE AUSTIN

Solutions for the Built World

Established in 1984, the Wiss, Janney, Elstner Associates, Inc. (WJE) Austin office specializes in material sciences, building envelope integrity, and structural engineering. WJE Austin combines state-of-the-art laboratory facilities and testing capabilities with knowledge and expertise that is unparalleled in our profession. WJE Austin has an established presence in Texas, providing services on some of the state’s most notable projects.

OUR SERVICES

- Structural engineering
- Architecture and architectural engineering
- Materials science
- Testing
- Design
- Litigation consulting

OUR APPROACH

As materials, technologies, and structures change, our fundamental philosophy remains the same: developing better solutions based on an accurate diagnosis of each structure’s unique problem.

OUR PEOPLE

With thirty-three employees in the Austin office and San Antonio annex, and more than 600 employees nationwide, WJE has the resources to respond to virtually any problem, both in Texas and nationwide. The office’s engineers, architects, and materials scientists are experts in their respective fields. WJE’s understanding of structural behavior and the performance of materials is enhanced by experience gained from more than 125,000 projects throughout the state of Texas.

OUR RESOURCES

WJE Austin houses a 2,000-square foot laboratory for performing comprehensive materials testing. The Austin Laboratory is supported by the Janney Technical Center laboratory and testing facility, located in Northbrook, Illinois. WJE Austin also routinely performs comprehensive constructional materials evaluations, including the full range of plastic and hardened concrete evaluation testing.
