

WJE SAN ANTONIO

Solutions for the Built World

Founded more than sixty years ago, Wiss, Janney, Elstner Associates, Inc. (WJE), is an interdisciplinary engineering, architecture, and materials science firm specializing in delivering practical, innovative, and technically sound solutions across all areas of new and existing construction. WJE combines state-of-the-art laboratory and testing facilities, nationwide offices, and knowledge sharing systems to provide solutions for the built world.

OUR SERVICES

- Structural engineering
- Architecture and architectural engineering
- Materials science
- Testing
- Design
- Geotechnical and geological engineering
- Litigation consulting

OUR APPROACH

As materials, technologies, and structures change, our fundamental philosophy remains the same: developing better solutions based on an accurate diagnosis of each structure's unique problem.

OUR PEOPLE

With six employees in San Antonio, over thirty in the Austin office, and more than 600 employees nationwide, WJE has the resources to respond to virtually any problem, both in Texas and nationwide. The office's engineers, architects, and materials scientists are experts in their respective fields. WJE's understanding of structural behavior and the performance of materials is enhanced by experience gained from more than 125,000 projects throughout the state of Texas.

OUR RESOURCES

WJE's Austin office houses a 2,000-square foot laboratory for performing comprehensive materials testing. The Austin Laboratory is supported by the Janney Technical Center laboratory and testing facility, located in Northbrook, Illinois. WJE San Antonio also routinely performs comprehensive constructional materials evaluations, including the full range of plastic and hardened concrete evaluation testing.
