EXPERIENCE

Danielle Campbell is experienced with various projects involving historic preservation, water intrusion, welding and structural inspections, facade assessment, and roofing and waterproofing. She has performed investigations for litigation support, and assisted in preparation of condition assessment proposals, investigation reports, site visit reports, and specifications. Ms. Campbell has also drafted repair documents for numerous structures.

Prior to joining WJE in 2011, Ms. Campbell worked for the National Park Service in Anchorage, Alaska, conducting research and completing Historic American Building Survey (HABS) documentation. While attending the University of Oregon, she also prepared HABS documentation for several structures at Ebey's Landing National Historical Reserve on Whidbey Island.

REPRESENTATIVE PROJECTS

Architectural Testing

- Starlight Hotels - Various Locations in CA: Glass inspection and documentation
- International Hotel - San Francisco, CA: Exterior curtain wall investigation, testing, construction observation, and documentation
