EXPERIENCE

Fergus McCallan joined WJE in 1997 and has been involved in a variety of field projects investigating concrete, steel, glass, brick, mortar, stone, terra cotta, and roofing materials. He has performed a variety of field tests that include performance testing of curtain walls and window systems, water leakage investigation, half-cell measurement testing, and structural integrity testing of parking garages.

Assignments have included historic structures, high-rise residential and office buildings, multilevel parking structures, institutions, and single-family dwellings. Mr. McCallan's additional experience includes quality control inspections, preparation of construction documents, field observations during the construction phase, and investigation of building facades and exterior wall systems.

REPRESENTATIVE PROJECTS
