EXPERIENCE

Bryce McQueen has experience in the investigation, analysis, and repair of existing structures. He has assisted in the development of construction documents and repair recommendations for a variety of structures, including commercial buildings, high-rise condominiums, hotels, and stadiums. He has also performed leakage investigations, including water penetration testing on building envelope components.

Prior to joining WJE in 2008, Mr. McQueen spent two years interning at an architectural design firm in Atlanta, Georgia. He gained experience in the development of construction documents and specifications for commercial office buildings and mixed-use developments.

REPRESENTATIVE PROJECTS
