EXPERIENCE

Richard Mosco has inspected over 2,500 structures for various organizations, including building owners, contractors, attorneys, real estate brokers, property management firms, and lenders. He has extensive experience in architectural and structural forensics, building enclosure commissioning, and building enclosure/roof consulting. Mr. Mosco has investigated numerous property types, including residential buildings, hotels, restaurants, industrial buildings, schools, medical facilities, retail complexes, and outdoor recreational sites. He has also served as an expert witness in numerous litigation cases and is well-versed in due diligence reports and disabled access compliance reviews.

Mr. Mosco joined WJE in September 2004 and has been practicing architecture since March 1985. His previous experience includes ten years serving as the Chief Corporate Architect for Nestle USA/Carnation Company. Mr. Mosco also worked for CTG Forensics, a construction litigation support firm, as the Director of Forensic Services. In addition, he practiced architecture independently for thirteen years with a client list that includes Cedars Sinai, Nestlé USA, Deans Foods, Hunt-Wesson Foods, Dreamworks SKG, CNL Hospitality, Marriott Hotels, and many others.
