EXPERIENCE

Douglas Stieve is a building envelope consultant with a specialization in roof and waterproofing consulting as well as masonry construction. Since joining WJE in 1991, he has provided professional services for over eight hundred buildings and other structures predominantly in the northeast United States. Mr. Stieve has experience with many types of materials including low- and steep-slope roofing as well as plaza deck, green roof, and subgrade waterproofing systems. He also has experience with brick, concrete masonry, glazed curtain walls, natural stone, and Exterior Insulation and Finish Systems (EIFS).

Mr. Stieve has managed the design and construction period services for several multimillion dollar repair and rehabilitation projects as well as provided consulting services to architects, contractors, and owners for new buildings. His work includes some of the largest and most complicated waterproofing projects in the New York metropolitan area.

Projects that Mr. Stieve has been involved with have won awards at the national, state, and local levels from organizations including the American Institute of Architects and the National Trust for Historic Preservation. He has also authored several articles, technical papers, and has lectured throughout the United States on the subjects of roofing, waterproofing, and masonry construction.

REPRESENTATIVE PROJECTS

Building Envelope Assessment

- Lincoln Center - New York, NY: Travertine investigation at various buildings
