EXPERIENCE

Wade Vorley is an architect with previous experience as a construction contractor. He has been with WJE since 2002 focusing his practice on building envelope investigation and design. Mr. Vorley provides field investigations, condition surveys, and repair designs for building owners, design consultation and peer review services for architectural firms, and litigation support for attorneys and insurance companies.

Mr. Vorley is published in trade journals, presents AIA accredited seminars and conducts research. He writes technical papers, including one presented at the 2011 NRCA International Roofing Symposium in Washington, D.C. and one at the 2013 Waterproof Membranes Conference in Dusseldorf, Germany.

Prior to joining WJE, Mr. Vorley worked as a roof installer, supervisor, project manager, and cost estimator with Cambie Roofing Contractors Ltd. in Vancouver, Canada. He prepared more than 2,600 roofing estimates and managed more than six hundred projects for new and retrofit roofing systems.

REPRESENTATIVE PROJECTS

Design Peer Review

- Santa Monica Place - Santa Monica, CA: Roofing and plaza waterproofing design consulting for reconstruction of a shopping mall as an exterior space
- MTA Gold Line - Pasadena, CA: Building envelope peer review for works yard of new light rail line in Los Angeles County
