

WJE Partners with Architectural Testing to Provide Building Enclosure Commissioning Services

NORTHBROOK, IL (March 9, 2009) — Wiss, Janney, Elstner Associates, Inc. (WJE) is pleased to announce that Architectural Testing, Inc., (ATI) has joined WJE in a strategic alliance to jointly pursue Building Enclosure Commissioning (BECx) opportunities for performance-critical buildings and structures. The alliance is designed to promote and further enhance the development and delivery of WJE's building commissioning services.

ATI is a nationally recognized fenestration and full-scale building enclosure performance testing and consulting laboratory. Leaders in the performance testing industry, ATI's experts perform standard-based and custom-designed tests to meet all client needs. Together with ATI, WJE can assure the quality and long-term durability of the next generation of buildings and structures.

"Optimum building performance begins at conception, that is both the premise and the promise of the Building Enclosure Commissioning (BECx) process," said Washington DC Unit Manager and Principal Dan Lemieux.

WJE and ATI nationwide firms offer clients prompt, effective service that is unequaled in our profession. For additional information about ATI, please visit [Architectural Testing, Inc.](http://ArchitecturalTesting.Inc) To learn more about the new ATI and WJE alliance and WJE building enclosure solutions, please contact Washington DC Unit Manager [Dan Lemieux](mailto:Dan.Lemieux).

About WJE

WJE combines state-of-the-art laboratory and testing facilities, nationwide offices, and knowledge-sharing systems to deliver better results for thousands of clients. WJE has successfully completed investigative, testing, design, and repair services for virtually every type of construction material, structural system, and architectural component. For more information, please visit www.wje.com.
