

Wiss, Janney, Elstner Associates, Inc.
Solutions for the Built World

WJE is pleased to announce the addition of

Nicholas J. Carino, PhD

to the Cleveland branch as an Affiliated Consultant.

Dr. Carino specializes in concrete construction technology and has over twenty-five years of experience as a structural engineer at the National Institute of Standards and Technology (NIST). His experience includes nondestructive testing, in-place evaluation, maturity method, and groundbreaking research related to the impact-echo method. Dr. Carino has provided expert failure analyses for major construction failures, led the structural assessment of the U.S. Embassy in Moscow, and examined the properties of fireproofing for the NIST investigation of the 9/11 World Trade Center collapse.

He is a fellow of the American Concrete Institute (ACI) and ASTM International and is actively involved in technical committees for both organizations. Dr. Carino is a four-time winner of the ACI Wason Medal for materials research. He has made numerous contributions related to standards development.

His valuable insight and professional work experience will enable him to provide exceptional service, technical excellence, and cost-effective solutions for clients nationwide.
