

Wiss, Janney, Elstner Associates, Inc.
Solutions for the Built World

WJE is pleased to announce the addition of

Justin M. Spivey, PE,

to our Princeton branch as a Senior Associate.

Justin M. Spivey specializes in the condition assessment, renovation, repair, and adaptive reuse of existing structures. He has worked with many National Register and National Historic Landmark properties, as well as buildings damaged by natural and man-made disasters. He is familiar with a wide range of materials, from nineteenth-century cast and wrought iron, wood, and masonry through new construction designed for earthquake loading.

Mr. Spivey's project experience covers every phase from conceptual design to contract documents to commissioning. He has worked as a consulting engineer and in overseas construction management. He is also trained in the post-earthquake safety evaluation of buildings (ATC-20 rapid assessment), industrial rope access, and historic preservation.

A licensed Professional Engineer in California and Connecticut, Mr. Spivey holds a Bachelor of Engineering degree in civil engineering from the Cooper Union for the Advancement of Science and Art and a Master of Science degree in structural engineering from the University of California, Berkeley.

Please join us in congratulating Mr. Spivey on his new position.
