

WJE ATLANTA

Solutions for the Built World

Founded more than half a century ago, Wiss, Janney, Elstner Associates, Inc. (WJE), is an interdisciplinary engineering, architecture, and materials science firm specializing in delivering practical, innovative, and technically sound solutions across all areas of new and existing construction. WJE combines state-of-the-art laboratory and testing facilities, nationwide offices, and knowledge sharing systems to provide solutions for the built world.

- Engineering
- Architecture
- Forensics
- Facade assessment
- Roofing and waterproofing
- Failure and disaster response
- Historic preservation
- Repair and rehabilitation
- Peer review and commissioning
- Bridge engineering
- Reserve studies

OUR APPROACH

Southern structures are just as diverse as the population's cultural and economic base—from charming and historic to modern and progressive. As materials, technologies, and structures change within the south, our fundamental philosophy remains the same: developing better solutions based on an accurate diagnosis of each structure's unique challenge. We strive to create partnerships and solutions that meet and exceed the needs and expectations of our clients.

OUR PEOPLE

Our people are our strength. Our team of Atlanta professionals brings the collective experience, technical capabilities, and in-depth knowledge gained from thousands of projects to every construction challenge in Georgia, the south, and the world.

OUR RESOURCES

Our Janney Technical Center laboratory and testing facility enables WJE Atlanta to provide reliable answers to questions about virtually any construction-related testing or field evaluation of conditions and performance. With over fifteen satellite offices, WJE Atlanta is positioned to deliver sustainable and innovative solutions for countless structures.
