

WJE SEATTLE

Solutions for the Built World

Founded more than half a century ago, *Wiss, Janney, Elstner Associates, Inc.* (WJE), is an interdisciplinary engineering, architecture, and materials science firm specializing in delivering practical, innovative, and technically sound solutions across all areas of new and existing construction. WJE combines state-of-the-art laboratory and testing facilities, nationwide offices, and knowledge sharing systems to provide solutions for the built world.

OUR SERVICES

- Engineering
- Architecture
- Laboratory
- Field
- Forensics
- Design

OUR APPROACH

As materials, technologies, and structures change, our fundamental philosophy remains the same: developing better solutions based on an accurate diagnosis of each structure's unique problem.

OUR PEOPLE

With more than a dozen employees in Seattle and nearly 700 employees worldwide, WJE has the resources to respond to virtually any problem, with expertise in all aspects of construction technology. The firm's engineers, architects, and materials scientists are supported by technicians who are experts in testing and instrumentation. WJE's understanding of structural behavior and the performance of materials is enhanced by experience gained from more than 125,000 projects worldwide.

OUR RESOURCES

Our Janney Technical Center laboratory and testing facility is one of the nation's largest privately owned construction-based testing laboratories; it enables WJE to provide reliable answers to questions about construction systems, components, and materials. No firm is more qualified to break new ground in finding practical, innovative, and technically sound solutions.

SEATTLE REPRESENTATIVE PROJECTS

- **Microsoft Campus**
Redmond, WA
Roofing Replacement Design and Construction Administration
- **Bellevue Pacific Tower**
Bellevue, WA
Building Envelope Survey, Leakage Investigation, and Repairs
- **Century Square Building**
Seattle, WA
Cladding Condition Survey and Facade Access Repair Design and Installation
- **Washington State Capitol**
Olympia, WA
Drone Flight Leak Investigation
- **Public Safety Building**
Eugene, OR
Roofing System Replacement Design Services
- **Alaska Geologic Materials Center**
Anchorage, AK
Roofing System Replacement
- **2018 Anchorage Earthquake**
Anchorage, AK
Post-Event Assessment of Commercial, Residential, and School Buildings
- **2017 Winter Storm**
OR, WA, and ID
Investigation of Snow-Related Agricultural, Industrial, and Residential Building Collapses and Repair Design
- **Safeco Field**
Seattle, WA
Design and Construction Administration
- **Temco Kalama**
Kalama, WA
Investigation of Honeycombing in Slipform Construction
- **Multiple Commercial Properties**
Various Locations, WA and OR
Fall Arrest Anchor Design and Testing
