EXPERIENCE

Kenneth Itle specializes in architectural preservation. His experience includes condition surveys, preparation of repair drawings and specifications, and construction observation for brick and stone masonry, roofing, plaster, windows, and plaza systems. Mr. Itle also works on Historic Structures Reports, Cultural Landscape Reports, and architectural historical surveys of rural and urban districts.

In addition to his historic preservation work, Mr. Itle has experience in the investigation and repair of water leakage in the building envelope. His work includes water infiltration testing of masonry, curtain wall, and metal panel systems. Mr. Itle also serves on the Board of Trustees of the Evanston History Center, which owns and manages the National Historic Landmark Charles Gates Dawes house in Evanston, Illinois.

REPRESENTATIVE PROJECTS

- GlaxoSmithKline Elion Hitchings Facility - Research Triangle Park, NC: Building cladding investigation and documentation of distress locations
