EXPERIENCE

Christopher McInnis is engaged in projects ranging from waterproofing consulting to historic preservation. His experience includes material analysis, historic masonry, roof assessments, waterproofing investigations, repair design and restoration, and construction period services. Mr. McInnis possesses expertise in various building assemblies, including window and rainscreen systems, waterproofing systems, and historic roofing systems and building materials, such as brick masonry, granite, limestone, cast stone, and terra cotta.

Before joining WJE, Mr. McInnis worked as an owner-contractor for seven years in southeastern Virginia and specialized in permeable paving systems, site development, and segmental retaining walls.
