EXPERIENCE

Jacqueline Leger Devereaux performs condition surveys of multiunit residential and commercial building facades. Her focus lies in the area of existing structures, with an emphasis on historically significant buildings and structures. Ms. Leger has investigated and implemented repairs on landmark structures listed on the National Register of Historic Places (NRHP).

Ms. Devereaux has experience in the investigation and subsequent evaluation and development of repair drawings and details for a variety of architectural materials and systems, including clay brick masonry, granite, limestone, cast stone, standing seam roofs, curtain wall and storefront systems, and glazed aluminum and wood window units. She conducts field testing for air and water penetration resistance in a forensic capacity and in the context of new construction, using ASTM and AAMA voluntary guide specifications and test standards.

REPRESENTATIVE PROJECTS

Condition Assessment

- Harbour Square Historic Townhomes - Washington, D.C.: Assessment of existing historic windows
- Washington Tower - Arlington, VA: Evaluation of granite panel failure, redesign of granite panel anchorage system, and construction observation of facade restoration

Failure Investigation

- Gannett USA Today Headquarters - McLean, VA: Post-earthquake failure investigation
- Washington Monument - Washington, D.C.: Post-earthquake failure investigation and development of repair contract documents
- Washington National Cathedral - Washington, D.C.: Post-earthquake failure investigation, facade assessment, and scope of stone repair development

Historic Preservation

- Eisenhower Executive Office Building, - Washington, D.C.: Historic restoration of exterior historic building features
- Kimpton Lafayette Building - Philadelphia, PA: Facade assessment and development of facade and roof restoration contract documents
- San Francisco Maritime Building - CA: Redesign of historic bleachers
- Virginia Governor's Mansion - Richmond: Investigation of water infiltration, development of restoration contract documents for chimney repairs, and roof replacement

Leakage Investigation

- 5625 Fishers Lane - Rockville, MD: Window leakage investigation and development of repair scope
- Children's National Medical Center - Washington, D.C.: Curtain wall leakage investigation and development of repair scope
- Washington Navy Yard - Washington, D.C.: Facade assessment, including facade and window leakage investigation and development of repair scope
