EXPERIENCE

Dale Fuhr practices in the area of design, evaluation, and testing of curtain walls, window wall, and aluminum panel systems. His services include project management, specification preparation, building enclosure commissioning, system design, design review, wall testing, leak and distress investigation, peer review, litigation consulting, estimating, and construction administration and observation.

Mr. Fuhr has more than forty years of experience in all aspects of the contract glazing industry. During this time, he has served as an estimator, senior project manager, and operations manager, overseeing the efforts of his staff on curtain wall projects with single contracts often in excess of \$15 million. Mr. Fuhr's responsibilities included business development, estimating, design, material procurement, fabrication, installation, quality control, safety, project administration, contract review, and project management of hundreds of commercial projects, including office buildings, condominiums, hotels, educational facilities, sports arenas, medical facilities, and retail centers.

REPRESENTATIVE PROJECTS
