#### EXPERIENCE

Donald Goosman joined WJE in 2015 with thirteen years of experience in fire protection engineering, project management, and technical leadership. Over his career, he has participated in numerous design and consulting projects providing a high level of client satisfaction. His expertise includes performing technical peer reviews; conducting building surveys, assessments, and due diligence surveys; reviewing fire alarm system, fire suppression system and clean agent system drawings and calculations; performing building code compliance reviews; and preparing technical specifications and drawings for fire protection systems. In addition, Mr. Goosman has prepared Fire Safety Evaluation Systems (FSES) reports and performed Statement of Condition surveys for healthcare facilities. He has experience in various project types, including high-rise office, hotels, universities, large corporate campuses, industrial, and gaming.

Prior to joining WJE, Mr. Goosman held several positions at Rolf Jensen & Associates, Inc. in Chicago, Illinois. In his most recent position as the operations manager of their Chicago office, he led a group of more than twenty fire protection engineers, security consultants and administrative staff and actively managing and providing technical solutions on several large projects.
