EXPERIENCE

Jeff Russell joined WJE in 2012, bringing more than twenty-two years of experience as an architect specializing in architectural design and technical detailing. He is experienced with the design and analysis of modern building envelope systems, as well as bringing historic structures into compliance with current codes and standards. Mr. Russell has a unique ability to develop innovative and functional solutions within the context of a highly designed architectural aesthetic.

Prior to joining WJE, Mr. Russell worked as a Technical Design Architect with Overland Partners Architects of San Antonio, Texas, for twenty years. There, he led interdisciplinary teams on projects such as the Lady Bird Johnson Wildflower Center, Penn State School of Architecture, and the renovation and addition to the LBJ Presidential Library.
