EXPERIENCE

Rebecca Wong specializes in historic preservation and materials conservation, and is an Architectural Historian in accordance with the Secretary of the Interior's Professional Qualifications Standards.

Ms. Wong has performed investigations, condition assessments, repair design, and construction observation services for a variety of facade systems including brick masonry cavity and mass walls; concrete, limestone, granite, and marble on both contemporary and historically significant buildings and structures.

Prior to joining WJE, Ms. Wong was a Project Manager with the federal government where she managed historic preservation projects at a National Historic Landmark. Ms. Wong is knowledgeable and experienced in the application of the Secretary of the Interior's Standards for Historic Preservation and National Park Service Technical Preservation Briefs. She communicated regularly with State Historic Preservation Offices, the NPS National Landmarks Program, and Advisory Council on Historic Preservation. Ms. Wong also has expertise in the federal guiding principles for sustainable design requirements, including Executive Orders 31423 and 31514. Ms. Wong served as a Federal Acquisition Certification-Contracting Officer's Representative (FAC-COR) for the government from 2005–2013.

REPRESENTATIVE PROJECTS

Historic Preservation

- Russell Senate Office Building - Washington, DC: Construction period services for stone, wood window, and metals restoration work
